How's This.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. W. A. RALPH, J. KINNA & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50c per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

Mr. Walter H. Findley, superintendent of the Apontley Coal Co., at Apontley, Tenn., is here for the week. Mr. Findley has been at the home of his father, Mayor W. F. Burr, for some days. They will return to Tennessee Saturday.

Mr. and Mrs. Emmitt Hibbs returned home Tuesday from a visit to friends and relatives at Greenville and Bremen and left Wednesday morning on 92 to spend a few days in St. Louis and Ill.

The Degree of Honor, a branch of the A. O. U. W. Lodge, met with Mr. and Mrs. J. F. Lloyd at their residence on Railroad street last Thursday night. After the business meeting was completed refreshments were served and a pleasant social time followed.

Mrs. William Igleheart, and sons of Salt Lake, who will be the guests of Mr. and Mrs. Paul Moore and Mr. and Mrs. Jno. B. Atkinson for several days are expected Saturday. Mr. George Priest, of Princeton, N. J., is also expected. Mrs. Igleheart is remembered most pleasantly by many of our citizens as Miss Ruth Priest, who taught a few years ago as principal of the Earlington public school. Mr. Igleheart is editor of the Salt Lake Herald and attending the Democratic Convention at St. Louis this week.

HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys

No DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

THEFORD'S BLACK-DRAUGHT

PERSONALS

L. S. Tucker, of Nortonville, was in the city last Thursday and paid THE BEE office a pleasant call.

Mr. and Mrs. Talley and children visited friends in Nebo a few days this week.

Thomas Trahern left this week for Texas, where he will enter a sanitarium. His many friends hope to see him return in a short while considerably benefited in health.

Thurman Rudd was in Hanson Sunday.

Miss Susie Maloney of Providence is visiting her brother, Jas. Maloney, this week.

The Misses Richards and Miss Crenshaw, of Hopkinsville, are the guests of Miss Carrie and Lucy Crenshaw this week.

Charles Isadors Treumpp, W. G. Barter's popular and handsome young clerk, is spending the week with homefolks in Cannellton, Ind.

Mrs. C. S. Davis, of Terre Haute, Ind., spent the Fourth with her daughter, Mrs. Frank Kirby.

J. J. Stodghill and daughter, Miss Adah, of Morganfield, were the guests of the family of Dan Stodghill Tuesday.

Misses Annie and Mollie Stodghill visited friends in Madisonville the Fourth, returning Tuesday.

Miss Annie Parker, of the Richmond country, was the guest of Miss Peyton first of the week.

Misses Lelia Barnhill and Tressa Graham, of Madisonville, were the guests of Mr. and Mrs. Ed Rule last Friday.

Mr. and Mrs. Jno. Rule were in Madisonville Saturday.

Jim Montague and Brick Southworth will spend Sunday and Monday in Manitou, it is said.

Misses Pearl Bailey and Leslie Cardwell, of Madisonville, were in town Saturday eve.

Mrs. Benton and children are visiting relatives in Allensville and Russellville this week.

Miss Georgia Lawton, of Hopkinsville, and Miss Lenora Merrill, of the Grapevine country, are the guests of Miss Mattie Yates this week.

Mrs. Dunning visited with Mrs. J. W. Lester Sunday.

Mr. Will McCulley, of Daniel Boone, visited the family of Mr. Lee Hawkins Monday.

Mr. and Mrs. Willie Boyd, of this city, were in Madisonville this week. Mr. Maloney, of Providence, was here last week visiting his son, Jas. Maloney.

Mr. and Mrs. J. M. Victory left for Louisville Tuesday to consult a physician. Mr. Victory has been in bad health for some time and is not improving.

Conductor W. N. Davis, who has been visiting his family in Louisville a few days, has returned.

Lee Yeager made a flying trip to Kinneys Sunday to see the folks.

Elmer Lynn was in Madisonville Tuesday on business.

Jno. Rule was in Madisonville Tuesday on business.

Jno. Long was in Madisonville Tuesday to see the ball game.

W. S. McGary and wife and Mrs. E. A. Chatten were in Madisonville

Tuesday taking in the ball game.

M. B. Long, of this city, was in Madisonville on business.

Dr. and Mrs. Nashit, of St. Charles were here Tuesday visiting relatives and friends.

Miss Jesse and Nannie Brown, of Nashville, are visiting their cousin, Miss Mary Mothershead, this week.

Joe Mothershead and Henry Cowan went to Madisonville Tuesday night.

Ass't Cashier W. L. Phillips, of this city, was in Madisonville Wednesday on business.

Mrs. Frank Gepheart, of Hopkinsville, is here this week visiting relatives and friends.

Frank D. Orr, of St. Louis, who has been visiting the family of his brother, E. M. Orr, a few days, left Tuesday night for Colorado.

Mr. Pope, of Louisville, who served on the St. Bernard civil engineer corps several months last year, arrived here last week and will remain with the engineering force during the summer months.

Mrs. Mary Staver is spending a week with her parents, Mr. and Mrs. Chase, of Evansville. She will return to Evansville Friday.

Mr. Robert Staver, of Evansville, spent the Fourth of July with Mr. and Mrs. Egloff returning Monday night.

It rained some the Glorious Fourth, consequently the various picnics given on that day were not howling successes, as was fondly anticipated by the different lodges, churches and others.

Some small boy, with a stone bruise on his heel and an unlimited amount of gall, persists in leaving the St. Bernard pasture gate open and letting other people's cows out in addition to his own. This caused a great deal of unnecessary trouble, as some of the cows do not come up for two or three days.

Last Monday Charles Trahern and Jesse Phillips decided to celebrate the Fourth by taking a row on the lake. One of the boys decided to get out on a large stump in the lake and rest while the other continued his passage. While thus separated the heavy downpour of rain came and the man in the boat being nearer the shore concluded to take refuge under a sheltering tree and left the man on the stump to keep dry. But the thick foliage was insufficient to turn the big shiny drops that came pattering down. The result was both boys came home rather damp.

Weak Hearts are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, the stomach attacks indigestion, and builds up against the heart. This crowds the heart and shortens the breath. Rapid heart beats and heart disease is the final result. Kodol Dyspepsia Cure digests what you eat, takes the strain off the heart, cures indigestion, dyspepsia, sour stomach, and contributes nourishment, strength and health to every part of the body.

Sold by St. Bernard Drug Store.

A Pleasant Affair. A social gathering was given at the residence of Mrs. M. Y. Selinney, of St. Charles, one evening last week in honor of her guest, Miss Eliza Curtis, of this city. A number of games were played and delightful refreshments served. Those attending were: Misses Della Crenshaw, Rose and Lucy Harlan, Pearl Turner, Andy Cobb, Nora Harlan and India Rigby; Messrs. Clay Strater, Eddie Hobson, Willie Smith, A. Robinson, Cecil Sanders, B. McGregory and Lucian Turner.

A Pleasant Party. Misses Mary Ryan and Agnes Lynn gave an entertainment in honor of their many friends which was very much enjoyed. The following is a list of those present: Misses T. Adams, C. Hoffman, L. Fenwick, C. McQuitty, M. Barnett, M. Martin, M. Bowman, M. Ryan, M. Lynn, C. Lynn, A. Sullivan.

Masters M. Ryan, W. Ryan, W. Robinson, J. D. Sullivan, R. Lynn, T. Wilson, R. Martin, H. McDowell.

Wedding Announcement. A special from Henderson, Ky., to the Courier-Journal says: "Mr. and Mrs. Elijah Garth Sebree announce the engagement of their daughter, Miss Myra Lewis Sebree, to James Moore Yeaman. The wedding will take place some time in November."

No False Claims. The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not say it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earliest stages and never fails to bring comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes.

Sold by Jno. X. Taylor.

IN THE GAME TO WIN.

Scoring point after point here by serving the people better than most places can. We have a gathering of

FURNITURE

that pleases because of its variety, the excellence of each article and the "can't be beat price."

These things are of much interest to everyone and deep importance to those who have need of them. It would be hard to find better goods at any price.

POPULISTS NAME THOS. E. WATSON

Ticket Placed in Nomination By the
Populist National Convention
at Springfield, Ill.

FOR PRESIDENT, THOMAS E. WATSON;
VICE-PRESIDENT, THOS. H. TIBBLES.

As Unsuccessful Attempt Was Made to
Resign the Nomination of the Ticket
Until After the St. Louis Con-
vention Had Nominated the Platform as
Adopted.

Springfield, Ill., July 6.—Thomas E. Watson, of Georgia, for president, and Thomas H. Tibbles, of Nebraska, for vice-president, were the ticket nominated by the populist convention. The names of William V. Allen, of Nebraska, and W. Williams, of Indiana, were placed before the convention for president, but before the list of states had been completed in the roll call, their names were withdrawn, and Watson was nominated by acclamation. Former Senator Allen made good his word that he would not enter into any scramble for the nomination, and while the nominations were being made he twice instructed the chairman of the Nebraska delegation to say that his name must not go before the convention. In the face of this, however, he received over forty votes.

Whether Mr. Watson will accept the nomination or not, no one in the convention seemed to know, and efforts to secure some definite information from Watson's friends failed. Watson was quoted as saying that if the democrats at St. Louis nominated (least) he would support him for president.

J. A. Mallett, of Texas, was chosen permanent chairman. The committee on credentials wrangled many hours on the question as to whether one man should be permitted to cast the vote of an entire state, when a state only had one delegate in the convention, and being unable to agree, it was referred to the convention, where it was debated until past the noon hour. The delegates favoring a full vote carried the day. The platform adopted is brief, and is practically a rehash of the Omaha platform of 1892. It was adopted as reported by the committee without a dissenting voice.

Former Congressman F. P. Radgely, of Kansas, attempted to secure the postponement of the nomination of a ticket until after the St. Louis convention, but the convention promptly tabled his resolution.

It required the entire day Tuesday in which to adopt the short platform and nominate the ticket.

The Platform.
"The issue of money is a function of government and should never be delegated to corporations or individuals. The constitution gives to congress the power to issue money and regulate its value. We therefore demand that the money shall be issued by the government in such quantities as shall insure its stability in price, every dollar to be a full legal tender, none of which shall be a debt redeemable in other money."

"We demand that postoffice banks be established by the government for the safe deposit of the savings of the people."

"We believe in the right of labor to organize for the benefit and protection of those who toil, and judge the merits of the people's party to preserve this right inviolate. Capitalism, which has no right to deny to labor the privilege which it claims, is a crime."

"We feel that intelligent organization of labor is essential, that the standard of workmanship, promotes the efficiency, intelligence and honor of the wage worker. We believe with Abraham Lincoln, that labor is prior to capital and not its slave, but its companion; and we stand for the right of toleration and justice which will promote industrial freedom and the observance of the principles of voluntary arbitration."

"We favor the enactment of legislation looking to the improvement of conditions for wage earners. The abolition of child labor, the suppression of sweatshops and of contracts which operate with free labor and the exclusion from American shores of foreign labor."

"We favor the shorter work day and declare that if eight hours constitutes a day's labor in government service that eight hours should constitute a day's labor in factories, workshops and mines."

"As a means of placing all public questions directly under the control of the people, we demand that the legal provision be made under which the people may exercise the initiative, referendum and proposition for all public officers with the right of recall."

"Land, including all the natural sources of wealth, is a heritage of all the people, and should not be monopolized for speculative purposes. The ownership of land should be prohibited."

"We demand the original interpretation of the constitution and a fair and impartial enforcement of laws under it, and denounce government by injunction and intimidation, and the right of trial by jury."

"We demand that discrimination and monopoly by the government should own and control the railroads, and that public utilities, which in their nature are monopolized to perfect the postal service. The government should own and control the general telegraph and telephone system and provide a parcel post."

"As to those trusts and monopolies which are not public utilities, we demand that those special privileges which they enjoy, and which alone enable them to exist should be immediately withdrawn."

"Corporations being the creatures of government, should be subject to government regulations and control and should adequately protect the public. We demand the taxation of monopoly privileges while they remain in the hands to the extent of the value of the privilege granted."

"We demand that congress shall enact a general law uniformly regulating the power and duties of all incorporated companies doing interstate business."

Wholesale Mail Delivery.
Jefferson City, Mo., July 6.—A wholesale mail delivery occurred here Monday morning, six prisoners making their escape by saving their way to freedom through the iron bars and cage.

Mr. H. L. Morrill, former vice-president of the St. Louis & San Francisco railroad, is dead, at St. Louis, after a long illness.

OTHERWISE UNNOTICED.

The Tammany braves at St. Louis are singing "Four more years of Grover."

Only 200 delegates, from 23 states, attended the Populist national convention at Springfield, Ill.

A tornado at Clinton, Ia., blew three spans of the bridge crossing the Mississippi into the river.

Military experts expect the siege operations at Port Arthur to occupy Japanese during the rainy season.

A frightened horse caused the death of three girls under the wheels of a trolley car at Texarkana, Ark.

Unofficial estimates of the attendance at the World's fair, Monday, give the total admissions as 150,000, a record-breaker in attendance.

An unidentified man was killed in St. Joseph, Mo., Monday, by the explosion of a giant cracker which he was holding in his hand when it exploded.

One hundred and twenty-eight survivors of the Norge, which was wrecked on the Isle of Rockall, in the North sea, have reached ports of safety.

The death toll over 600.

Raisuli, the Moorish bandit, who recently captured and held on Perdicaris for ransom, is now on the Pacific coast, it is reported, and he is within two hours' march of Tangier with an army.

The number of dead in the Litchfield (Ill.) train wreck is known to be 21. Nineteen of them have been identified. Several are missing, and it is almost certain that some were burned to ashes.

Because her husband refused to give her money, Mrs. Reber Williams, a young bride of Edwardsville, Ill., made three unsuccessful attempts to commit suicide, being saved each time by the narrow margin.

While Sir William Henry Ratigan, M. P., was automobiling with his wife, near Eggswode, England, a tire burst, and the machine was overturned. Sir William was killed and his wife was severely injured.

Capt. Clark, a Texas planter, objects to the introduction of the Guatemalan ant as an enemy to the boll weevil, claiming that the sting of the insect is deadly, and will preclude the possibility of picking the crops.

George M. Lorenz, an expert swimmer, dived from Eds bridge at St. Louis, Monday, and was drowned. William Clark, swimming instructor, and James Murphy were arrested for aiding and abetting, and are held for the coroner.

Fourth of July Celebrations.

Great Falls, Mont., July 5.—Miss Margaret Pink, aged 20, of Box Alder, is dying as a result of a wound inflicted by Arthur Gies, 4 years old, during a Fourth of July celebration, who discharged a shotgun in the girl's face, blowing off part of her head.

Killed in a Runaway.

Texarkana, Ark., July 5.—Sybil Pugh, Maid Pillow and Birdie Pillow, girls, were killed, and four others were injured Monday when their horse ran away, overturned their surrey and dragged it in front of a rapidly moving street car.

French Negro in South Carolina.

Charleston, S. C., July 1.—Calro Williams, the negro who killed Thurston O. McGee at Scranton, in Williamsburg county, last February, was taken from the Atlantic Coast line train at Scranton, Thursday evening, and lynched.

Killed in a Duel.

London, July 3.—The Central News has received a dispatch from Athens saying that the minister of public instruction has been killed in a duel by X. Hadji-Petro, a member of the chamber of deputies.

Mayor Jones Improving.

Toledo, O., June 26.—Mayor Jones is improving. He asks for food, and is stronger than for several weeks. His physicians believe that his chances for recovery are good.

Texas Shooting Affray.

Batson, Tex., July 5.—B. Best and Joe Munnice shot and killed each other Monday with pistols. The shooting grew out of a quarrel of three years ago.

Chickens, fryling size, \$1.50 to \$3.00 per doz.
Hens, \$2.50 to \$3.00 per doz.
Turkey, 8c.

Size of an Orchard.
(The American Cultivator.)

It is almost as difficult and expensive to care for five acres of orchard trees as it is for ten, and is misplaced energy to attempt to plant orchards too small to occupy one's full time. As a good deal of modern orcharding expense consists in the labor of spraying and fighting insects it will pay better to have an orchard large enough to warrant one in purchasing the necessary apparatus to spray properly. A large orchard also tends to protect itself against the winds, and in winter and summer there may be a considerable saving from the trees on the outside nearly always produce less than those inside.

If one is going to have an apple or other fruit orchard it is just as well to have a fine one as an ordinary kind. The latter will not cost much in the end, and it will prove profitable, while the former will not. Plant trees of well-known marketable varieties and get good specimens from reliable dealers. Spray them every season and protect them from pests of all kinds. Do not let them injure themselves by beating heavily in the first few years. Pluck off the blossoms or fruit, so that no limb or branch will be strained. Overproduction at an early age is deadly to a good tree. Every year set out new trees in the place of any that may be injured or killed. Do not have a ragged orchard, but try to make every tree come up to the standard. This can be easily done if one has ordinary intelligence and will give the time to the work. Use only hard crops at first in the apple orchard. Wheat, oats and timothy are bad for the trees. They take too much from the soil, but hood crops, seeding the land to clover or cowpeas every few years will produce excellent results.

Raising Hogs.

If you raise hogs you must first have a good place for them. Your farm must be adapted to hog raising and you must like the animals. When I start pigs out I put them in a shed made from rough lumber, five by six feet. From the front of the shed I always build five feet high and the back only two feet high. I also make a small lot in front of each shed for the pigs to exercise in and take their sunbaths. To this inclosure I make a small door so that it is easy to let them out in the pasture. These sheds are always built in the fields I expect to pasture, so it is little trouble to take care of the pigs. I generally have at pigs come in April and keep them shut up until they are at least ten days old, and then turn them out in the pasture.

I generally have about thirty Poland-China sows to raise pigs from each year; I think this breed feeds smoother than any other. While shut up I feed corn and give them pure water direct from a bucket. I have always found this the quickest

and cleanest way. One bucket of water is sufficient for six sows. By so feeding them there is no danger of their rooting the through over on the pigs. I always twice a day, or with clean straw. When the pigs are about ten weeks old I sort out fifty of the best of them to keep and sell the rest and generally realize about \$2 apiece for them. I feed and sell about fifty head of hogs each year and pick up pigs as well grown, broad and deep as I can, with quality and finish. These will get fat easily and grow rapidly. I pick them out regardless of sex, for a good barrow is more profitable than a poor sow. I feed these pigs one ear of corn twice a day, or one bushel of wheat or rye, scattered on the ground, at the same time allowing them to run on clover until corn will do to husk, when I start in on the new corn. In December I breed the sows for another year.

From December on the pigs will eat two and one-half bushels of corn a day, and will gain twenty pounds each per month, which is worth \$3.00. The feed is worth sixty cents, so you see I double my money in this way. In cold weather I feed some dry oats, which they seem to relish.

This time of the year they run in the feed lots, around the barn and sheds and in a piece of woods near by. They are big enough not to get with the cattle and so run hurt. They will weigh about 160 pounds each, and I do not think the biggest one will weigh twenty pounds more than the smallest.

When the sows wean their pigs I let them run on clover until the 15th of July, and then start to feeding them corn. I aim to get them on full feed as soon as I can, and they will gain eighty pounds per month. I feed old corn until the 1st of September, when I have a field of corn ripe, and I then turn them in on it. By the time the corn is devoured will be the 1st of September, and I have my corn cut and wheat sowed. My hogs are also fat and will weigh about 18,000 pounds, which makes a good car load of big hogs. These will bring the highest price and strike the best market of the year. Every year hogs bring at least 100 per hundred more in September than in November or December. This means \$150 to me. Take this and the \$180 I get for the extra pigs I raise and I think it pays me for my trouble.

This beast keeping eight year old sows to raise two litters a year. They are worth a dollar more in a year than they are today. I claim what you feed these sows is thrown away, as they never improve any, but do injure themselves by beating heavily in the first few years. Pluck off the blossoms or fruit, so that no limb or branch will be strained. Overproduction at an early age is deadly to a good tree. Every year set out new trees in the place of any that may be injured or killed. Do not have a ragged orchard, but try to make every tree come up to the standard. This can be easily done if one has ordinary intelligence and will give the time to the work. Use only hard crops at first in the apple orchard. Wheat, oats and timothy are bad for the trees. They take too much from the soil, but hood crops, seeding the land to clover or cowpeas every few years will produce excellent results.

The Culture of Strawberries.

For the culture of strawberries, put the ground in the best condition with plow and harrow, and procure good plants. When you plant, when the stem shows the future blooming. Ordinary good soil will grow strawberries. The plants should be placed in water with sufficient water to cover the roots. A good plan is to make the rows by a line, as the straighter you make them the easier you will find the work of cultivating the strawberries. Pick off all buds or blossoms, spread the roots out, water, and make the soil firm around the plants. The crown of the plant should be very little below the surface when planted. Two plants are all that are profitable to grow from one planting. Cover the plants in the fall with straw or leaves, to prevent the thawing and freezing of the fruit buds. When all danger from frost is over, rake the covering from the plants and let it be seen the rows. There is no work connected with strawberry culture after

the ground is in order but what a woman can do, and the farmer's wife that has the ground can add to her allowance by growing strawberries for a few families.

This time last year hogs averaged around 225 pounds. They now average around 268 pounds, says Breckers' Gazette. In June, 1903, they averaged 231 pounds, and went up to 257 pounds in September, dropping back to 228 pounds in November and to 206 in January, 206 in February, 206 in March, 206 in April and about that figure for May. Hogs have marketed lighter every year on the average since 1896, when the average per head was 246 pounds. It was 242 pounds in 1897, 241 pounds in 1898, 243 pounds in 1899, 233 pounds in 1900, 228 pounds in 1901, 220 pounds in 1902, and 227 pounds in 1903.

Fowls are omnivorous eaters; that is, they will eat nearly anything, and it has been demonstrated that food eaten by laying hens imparts its flavor to the eggs. A gentleman noticed his hens eating freely of onion tops that had been thrown into the poultry yard. For several days the eggs of those hens had such a strong onion flavor as to be unfit for use. Such food has been found to impart its flavor in the flesh also. It is important, therefore, that fowls have access to none but clean, good food. Filthy slops should be kept out of their reach, as should also decayed and unwholesome substances. Carcasses of dead animals should never be permitted to lie around where the fowls can get to them. The flesh of fowls that eat such stuff is not fit for food, neither are the eggs laid by them.

For a lady liver try Chamberlain's Stomach and Liver Tablets. They invigorate the liver, aid the digestion, regulate the bowels and prevent bilious attacks.

THURSDAY, JULY 7, 1904.

DON'T WAIT TILL

AFTER THE FUNERAL.

Parents of Earlington boys ought individually to know that their boys are not among those who practice at jumping upon moving trains. The temptation to do this sort of athletic stunt is strong with the active, growing boy and he will continue to risk life and limb for the applause of his playmates if he is not made to realize the great hazard he is taking. The railroad officials and the town authorities are alive to the danger and if parents cannot or will not control their boys they will be made to feel the law's power and punishment. The Bee urges that parents take this matter in hand and use all their influence with the boys to stop this exceedingly dangerous practice of train jumping. It will be to late after the funeral.

Geo. T. Roberts, Director of the United States Mint, says there will be no more silver dollars coined, because the silver bullion purchased under the Sherman act is exhausted. There are plenty silver dollars coined and stocked up in treasury and bank vault to cut notes in the pockets of future generations, and if we at any time get out of reach of these well stored silver vaults we can manage to get along with Uncle Sam's bank notes.

The heavens mixed so much water with the 4th of July breeze on Monday, in Kentucky and other states, as to materially curtail the mortality list of that great day. There were casualties enough but the rain saved the day.

Urey Woodson, of Owensboro, Elected National Committeeman from Kentucky.

St. Louis, July 5.—Urey Woodson, of Owensboro, was elected National Committeeman from Kentucky by the delegation from that State over W. B. Halldeman by a vote of 14 to 11 at a meeting held tonight in the Railway Exchange building, headquarters for the Kentuckians.

A resolution instructing that the delegation cast its twenty-six votes for Judge Alton B. Parker for the Presidential nomination so long as it appears that he can acquire the two-thirds majority necessary for nomination, was adopted by a vote of 23 to 2.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine."

This remedy is for sale by St. Bernard Drug Store, Lexington; Ben T. Robinson, Martinsville; John X. Taylor, Earlington.

On March 4, 1905, 85,000 red men in the Indian Territory will give up the tribal rifle and become American citizens.

Sound kidneys are safe. If the kidneys are healthy, the kidneys will be healthy. Sold by Jno. X. Taylor.

MINING NOTES.

The U. S. Geological Survey field work for 1904 will cover investigations in many states covering several lines of work in wide general areas. Several States will be included in an investigation to be made by Mr. H. Foster Bain of the lead and zinc deposits of the Mississippi Valley. He will make a special study of their genesis, geologic occurrence, and economic importance. His specific task is to examine the lead and zinc deposits of the upper Mississippi district in Illinois, Iowa, and Wisconsin and to prepare a preliminary report upon this district. In addition he will examine certain copper deposits in Shannon county, Missouri, associated lead and zinc ores in St. Genevieve county and in the Mine La Motte district, and the St. Clair and Granby mines in southwestern Missouri. He is also directed to reexamine the more important lead and zinc mines of the Western Kentucky district and to make a reconnaissance examination of the lead and zinc district of the Appalachian Valley in Virginia and Tennessee. Mr. E. O. Ulrich, who is directed to investigate the Silurian and Ordovician paleontology and stratigraphy of the northern Mississippi valley, will cooperate with Mr. Bain in the study of the lead and zinc deposits of that district.

Baltimore, Md., June 30.—At the beginning of the last half of the nineteenth century there were only two States south of the Ohio river and Mason and Dixon's line in which coal was being mined to any great extent. These two states were Maryland and Virginia, the latter being the first State in this country in which bituminous coal had been mined, and both States producing a little more than 325,000 tons in 1851, when the total output in the country was 1,411,625 tons, of which nearly 5,500,000 tons were anthracite. In 1903 the total output in the South by tons was as follows:

West Virginia.....	26,882,524
Alabama.....	11,700,753
Kentucky.....	7,150,000
Tennessee.....	4,750,000
Maryland.....	4,454,385
Virginia.....	3,500,000
Arkansas.....	3,000,000
Texas.....	800,000
Georgia.....	400,000
North Carolina.....	25,000
Total.....	62,602,602

In the 52 years, with a production of bituminous coal in the whole country rising from 2,000,000 tons to 276,723,000 tons, the production in the South had increased from 325,000 tons to 62,602,000 tons.

Will Whitford was in Madisonville Monday on business.

Mr. Abe Martin, of Mortons, visited friends here Sunday.

James Cloren, of St. Charles, visited his parents in this city Sunday.

Mr. Rob. Gordon, of this place, was in Madisonville Monday.

Steve Aaron, night watchman at the Shamrock mine, was here Tuesday visiting friends.

It is said that the shaft now being sunk at Henderson will be bored to a depth of 800 to 1,000 feet with expectation of reaching a grade of that is said to be similar to the best grades of Pennsylvania coal. In but few places in Kentucky have the lower measures been reached and therefore a great deal of interest will be felt in the developments resulting from these borings. If the lower measures prove satisfactory there is a strong possibility of a large mine being located in the vicinity of Henderson. Should this become a reality as 90 per cent of the money spent in coal mining is for labor it will be readily seen that this will be a great factor in booming the city.

QUARTERLY REPORT OF THE EARLINGTON BANK INCORPORATED AT THE CLOSE OF BUSINESS ON The 30th Day of June, 1904.

SUPPLEMENTARY.

1. Highest amount of indebtedness of any stockholder, person, company or firm (including in the liability of the individual members thereof) directly or indirectly, if such indebtedness exceeds 10 per cent of capital stock actually paid in, and actual amount of surplus of the bank.....None.
2. How is indebtedness stated in above item 1 secured? (See Section 583, Kentucky Statutes.).....None.
3. Highest amount of indebtedness of any director or officer, if amount of such indebtedness exceeds 10 per cent of paid-up capital stock of bank. (See Section 583, Kentucky Statutes.).....None.
4. How is same secured?.....None.

5. Does amount of indebtedness of any person, company or firm including in the liability of the company or firm the liability of the individual members thereof exceed 10 per cent of paid-up capital and actual surplus?.....No.

6. Amount of last dividend.....\$900.00

7. Were all expenses, losses, interest and taxes deducted therefrom before declaring dividend, and was not less than 10 per cent of net profits of the bank for the period covered by the dividend carried to the surplus fund before said dividend was declared? (See Section 586, Kentucky Statutes.).....Yes.

STATE OF KENTUCKY,
COUNTY OF HOPKINS, ss.

Jesse Phillips, Cashier of Earlington Bank, a Bank located and doing business on Main Street in the town of Earlington, in said county, being duly sworn, says the foregoing report is in all respects a true statement of the condition of said Bank, at the close of business on the 30th day of June, 1904, the best of his knowledge and belief; and further says that the business of said Bank has been transacted at the location named, and not elsewhere; and that the above report is made in compliance with the official notice received from the Secretary of State, dated the 30th day of June, 1904, as the day on which such report shall be made.

Jesse Phillips, Cashier.
Directors.—P. B. Ross, W. F. Cox, J. W. Sloan.

LOCOMOTIVE BLASTS

Thomas Walsh went to St. Louis Monday.

Fireman McKeroy of the St. Louis Division has resigned.

F. C. Walsh, machinist, has resigned his position at Howell. Fireman P. J. Dillon is off on a vacation.

J. A. Purcell and family of Howell are at the World's Fair. Harry Connott was at Guthrie on the first.

Paul Fedri and son of Howell have gone to St. Louis.

J. C. Scobee has returned from a short vacation in Kentucky for his health.

Clyde Shirley, of Mt. Vernon, Ill., has secured a position in the car department at Howell.

Train No. 63 on the St. Louis Division was delayed about half an hour Sunday on account of two mules and a horse having gotten fastened in a trestle near Carmi, Ill. Engineer Henry Laswell saw them in time to stop the train. The mules easily jumped out and ran away, but the horse had its legs broken and struggled so that it was impossible to get out of the trap into which it had fallen without killing it.

Engineer George Lockwood is back again after a stay at Hot Springs, Ark., for his health.

John D. Rockefeller says "The poorest man in the world is the man who has nothing but money." Now, what else has Rockefeller?

Fireman T. P. Key while sprinkling water on coal on engine 965, train 67, near Guthrie on the 2nd, had the horse to get away from him, so that hot water was squirted on his leg, scalding it pretty badly. He was obliged to go to his home in Nashville on the account of it.

Drink and crime—the Siamese twins.

Train 51 was considerably delayed the other day on account of steam chest bursting on the left side of engine 250.

The L. & N. did a good business into Evansville the Fourth.

What is morally wrong cannot be politically right.

The L. & N. has made arrangement with the St. Louis Terminal Railroad Association to pull its trains over the bridge with their own engines to Union Station, the arrangement heretofore having been that the Terminal people handled all trains over the bridge themselves.

Of 700 ten-dollar marked bills paid on a Saturday night by a Massachusetts factory to its hands, 400 by the following Tuesday were deposited in the bank by the saloon keepers.

William A. Weymeir, one of the Howell machinists, died at his home in Evansville at 8 o'clock a. m. July 4th with heart trouble.

While in a drunken convulsion, Patrick Moran, of Moundsville, W. Va., bit off his tongue and threw it in the fire. The report adds that he almost bled to death before a physician could reach him.

Harry E. Dodge, from the chief Draftsman's office at Louisville, was on the division this week.

Of interest to merchants and railroad men is the new garnishee bill which was passed by the last Legislature and which became a law last week without the Governor's signature. The bill repeals the provision of Section 1701, Kentucky Statutes, which with reference to exemptions from attachments reads: "Provided, that the exemption of fifty dollars shall not apply to debts contracted for food, fuel, medicine, raiment or house rent for the family." Under the old

law the wages of a person earning less than \$50 a month, were not subject to attachment unless for food, raiment, fuel, etc. Now the exemption for debts of that character is the same as the exemption for any other debts. Under the present law unless a person earns more than \$50 a month his wages cannot be attached for any debt.

Railroad men are speaking of Y. Van de Berg as a possibility for the place of first vice president of the Louisville and Nashville railroad says the Courier-Journal. Mr. Van de Berg accepted service with the road soon after Milton H. Smith became president, and was with it until four years ago. He filled every position from traveling freight agent to first vice president, with the exception of second vice president. He was one of the men who built up Mr. Pensacola port for the road. Mr. Van de Berg went from Louisville to Baltimore to engage in a business venture, and on June 1 accepted a place in the traffic department of the Atchison, Topeka and Santa Fe. He is a protégé of Mr. Smith, and holds a strong place in the estimation of the foreign stockholders.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure."

Sold by Jno. X. Taylor.

JIM CROW LAW

In Effect in Maryland Railroad and Steamboat Companies Prepared for Change.

A special from Baltimore says: The law passed at the last session of the Legislature requiring separate compartments for white and colored passengers to railway and steamboats, known as the "Jim Crow" law, is in effect. It is held that the law does not apply to through express trains and will be enforced only on trains doing a strictly local business in the state and on steamboats plying exclusively on state waters. All the railroad companies whose lines pass through the state announce that they are prepared to obey the law, having equipped coaches for this purpose. The cars are partitioned off, one-half being for colored passengers and the other half for whites. The compartments are designated on the outside with cards on which are the words "white" or "colored."

Steamboat companies, whose vessels ply the Chesapeake Bay and tributaries have made similar preparations to comply with the law, having reserved separate coaches on the decks and in the saloons and separate berths for colored passengers.

Piles Upon Top of Piles.

Piles upon piles of people have the Piles, and DeWitt's Witch Hazel Salve cures them. There are many different kinds of Piles, but if you get the genuine and original Witch Hazel Salve made by E. C. DeWitt & Co., of Chicago, a cure is certain. H. A. Tisdale, of Sumner, S. C., says, "I had piles 20 years and DeWitt's Salve cured me after every thing else failed."

Sold by St. Bernard Drug Store.

Base Ball Riot—Umpire Beat.

In the seventh inning of the game of base ball Saturday between Henderson and Paducah, teams of the "Kitty" league, with the score 2 to 0 in favor of Paducah, Umpire Settley sent Gerrard, of the Paducah team, to the bench for protesting against one of his decisions. Fletcher Land of Paducah struck Settley in the jaw, knocking him down. A riot was imminent, but the police arrested Land. Settley then gave the game to Paducah, 9-0. Land was fined \$25 in court and President Thompson fined him \$25, and suspended him indefinitely.

FIRST WHEAT SALE

In Owensboro Market Brings 85 Cents. Farmers Holding for Dollar Wheat.

The wheat market has opened up at 85 cents, says the Messenger. Two purchases were made Tuesday. Others are anxious to buy, but the farmers are disinclined to sell. The tendency to hold on for a dollar is strong among the farmers, but the millers think the price will drop instead of raise. Corn is also up, but hay is lower than last year. The deliveries of wheat will begin early next week.

C. W. Bransford bought the first crop. He paid 85 cents for it and found from the sample submitted that it graded 62 pounds to the bushel. This crop belongs to the Robinson brothers, whose farm is just above the city.

The first purchases of the season were made last Friday at Gilbert's mill. It is the crop of Frank Boehman and is ready for delivery today, but Mr. Gilbert advised that the delivery be not made until next week. Mr. Boehman was also the first to sell last year. The quality is unusually good, the crop being noted for its short straw and long head. Last year there was largely straw and short head.

Mr. Broeker has bought no wheat yet, however, like the other millers, is ready to offer 85 cents for wheat that will be delivered on or before July 10. The belief at this mill is that wheat will soon drop below the present price.

The Star mills have bought none yet. Mr. Field said to the Messenger that the farmers were disinclined to sell yet. He has no old wheat on hand, but has a supply of flour to last for ten days. He, too, is willing to pay 85 cents for deliveries made before July 10. He says the first few days of the market will be the best, because the big mills are out of wheat, and are offering the highest possible price to get the farmers to rush in with the crop.

O'Bryan & Robinson, the successors to Hoagland, Hardy & Co., whose place of business is on the river front, has already bought 10,000 bushels of wheat. The price paid is 85 cents, the highest offered here up to the present. Of this purchase 5,000 bushels are to be delivered at Owensboro, 3,000 at Griffith and 2,000 at Maceo. The price at which wheat was opened last year was 70 cents. In this connection it may be stated that a sample brought to this firm from the Maceo neighborhood by Mr. Robinson on Friday is one of the best ever shown in Owensboro. It grades 63, and as the usual grading of No. 2 wheat is 58½, it will be seen that this is unusually fine.

Recovered Horse and Buggy.

Mr. Wooten, of Madisonville, recovered the horse and buggy that was stolen from his stable several days ago. The horse was hired to a man giving his name as E. C. Johnson who was to be off three or four days billing a show in country towns. After the time limit had expired the owner of the horse began to inquire and found that the buggy and horse had been sold for \$50.00 at Fort Branch near Henderson. Mr. Wooten went to Fort Branch and returned with his property last Friday. The man escaped.

LARGE TREE

Found in Crockett, Texas, by Oil Drillers.

The trunk of a large tree has been encountered at a depth of 1,000 feet by the oil drillers at Crockett, Texas. Large pieces of perfectly preserved bark and wood of clear grain have been brought to the surface. The wood is of very hard texture, and the tree is estimated to have been between two and three feet in diameter.

CHIEF DISPATCHER

Hereafter Has Full Authority in Issuing Train Orders.

Orders have been issued from the superintendent's office in Louisville giving the signing of train orders and distribution of cars over the Louisville and Paducah division of the L. O. R. R. to the chief dispatchers instead of trainmasters. The issuing of train orders is done by dispatchers under the direction of the chief dispatcher, but over the signature of the trainmaster. It is all under his supervision, however, but on account of close association with the actual work, the chief dispatcher is now assigned this duty, simply for convenience.

On the Evansville division the assistant superintendent will have authority, no chief dispatcher being located there.

Killed in Card Game.

Bowling Green, Ky., July 5.—Near Hadley, this county, Fred Scott shot and instantly killed Charley Keys, emptying both barrels of a shotgun into him. They were with a party who were spending the day in the woods drinking beer and playing cards, and the killing was caused by a dispute over a card game. Both men were employed at Caden's stone quarry. Scott has not been arrested.

Badly Injured.

Pikeville, Ky., July 5.—While working on the stone bridge at the mouth of Hurricane creek, three men, Willie Marrs, James Damron and Willie Hall, were all badly injured. It seems that a tram carrying stone from the quarry to the bridge was in charge of a negro who let it get away from him. At any rate, the car ran down the track to the bank, left the rails, and turned over down an eighteen-foot embankment and caught the men. Marrs is in a worse condition than his comrades. His right leg is broken and his body was badly crushed by a stone weighing at least 1,500 pounds rolling on him.

The Last of the Murrells.

Owingsville, Ky., July 5.—A few days ago, when John Murrell and Blue Puckett met in front of the postoffice at the village of Iron Mountain in the mountains of Estill county, Kentucky, and with a shotgun and revolver shot the life out of each other, there perished in Murrell the last surviving relative, it is said, of John A. Murrell, the noted outlaw.

The little daughter of City Marshal Benton, who was taken very seriously ill last week while on a visit to relatives in Allensville is reported to be much better.

John Herb, of St. Louis, who was badly injured by striking his head on a bridge while on his engine some time ago has recovered sufficiently to be able to visit friends and relatives here. He was confined to the hospital several days and still wears a large bump on his head.

The holders of the following tickets won the prizes offered by the A. O. U. W. and W. O. W. at the 4th of July picnic Monday: No. 1083 won the handsome table, given by the Porter Installation Co., and No. 1095 won the fine buggy given by Foley.

A new roof is being put on the shed in front of the Robinson block.

The St. Bernard Mining Company's brick store building is being newly painted this week by Brane Bros. & Bush, of Hopkinsville.

The Sick.

Mr. Tom Whitford is quite ill this week.

Mrs. Henry Wyatt is reported very low this week of consumption. Mr. Egloff was taken suddenly ill yesterday.

Mrs. Lawrence Kilroy is quite sick this week.

Jewel Webb is ill.

Bryan Hopper, who was on the sick list last week, is able to be at his place of business.

Miss Annie Ashby is on the sick list this week.

Mrs. O. P. Webb is very ill this week.

YALE AND HARVARD DIVIDED HONORS

The Sons of Old Eld Defeated Harvard in the Varsity Race by Seven Lengths.

HARVARD WON THE FOUR-OARED THROUGH MISHAP TO YALE'S BOAT.

In the Big Race Yale Was Never Headed, and the Result Was a Case of Superiority in Rowing Strength.

London, Conn., July 2.—Yale won the annual varsity eight-oared boat race from Harvard Friday, and crowned a year that was replete with brilliant athletic achievements. She proved, as she has done many times before, her superiority in everything that goes to make a perfect crew, skill with the oars, seamanship and endurance.

Her victory in the varsity race, considered with her grand battle in the four-oared race, which she lost through an accident when it looked like a walk-over, and the winning of the freshman Thursday in a magnificent struggle, makes it fair to say that Yale outclassed Harvard.

Probably no regatta ever held on the Thames course was more worth seeing, and none proved such a disappointment to spectators through the bungling manner in which the events were managed.

In the varsity eight, both Yale and Harvard had phenomenally fast and powerful crews, while no record was broken or ever threatened, the struggle, as anticipated, was a grand one.

In the four-oared race, the defeat of Yale was due to the breaking of a lock on the outrigger of Fish's oar. Harvard's hollow victory accordingly was brought into greater contrast through the superb work of her rival. An incident occurred in connection with this race, but its bearing on the outcome is not thought to have been material. Swain, who rowed No. 2, in the Harvard boat, collapsed just as the crew was called out, and John Rowditch, who had never filled that seat, went into the boat. He was not in first-class condition, having recently recovered from an attack of measles. The official time of the race was three events which now constitute the annual competition, including the freshmen of Thursday, were as follows:

Freshmen eight, two miles: Yale, 10:20; Harvard, 10:20 1/2.
Varsity four, two miles: Harvard, 12:12; Yale, 12:15. Winning distance 1 1/2 lengths.
Varsity eight, four miles: Yale, 21:40; Harvard, 22:10. Winning distance seven lengths.

MORE BOODLE CONFESSIONS

Former Delegate Schnettler to Plead Guilty and Threat Himself Upon Mercy of Court.

St. Louis, July 2.—Attorney Simon F. Bass, representing former Delegate John Schnettler, a member of the house of delegates combine in the city lighting deal, and under indictment for receiving part of the \$250,000 divided among the members of the combine, has advised Schnettler to plead guilty and throw himself on the mercy of the court.

Schnettler was indicted on charges similar to those on which Julius Lehmann and Emil Hartman were convicted, and on which they are now serving sentences of seven and six years, respectively, in the penitentiary, their convictions having been sustained by the supreme court.

Word was sent to Schnettler at his grocery store, 901 Lami street, Friday afternoon, by Attorney Bass, advising him to follow the example of Edmund Bersch, another member of the house of delegates, plead guilty and ask the mercy of the court.

J. E. CHANDLER ACQUITTED

He Was Charged With Arson and Malicious Mischief at Central City, Col.

Central City, Col., July 2.—J. E. Chandler, former financial secretary of the Idaho Springs Mining union, a member of the Western Federation of Miners, was acquitted by a jury on the charge of arson and malicious mischief in connection with the dynamiting of the transformer house at the Sun and Moon mine, in July, 1903. Five other men are awaiting trial on the same charge.

At a previous trial on the charge of conspiracy in connection with the Sun and Moon explosion, Chandler and a number of other members of the Idaho Springs union were acquitted.

APPROPRIATION IS CUT OFF

French Chamber of Deputies Suppresses Its Appropriation for Embassy at the Vatican.

Paris, July 2.—The budget committee of the chamber of deputies has voted for the suppression of the appropriation for the French embassy at the Vatican, and passed a resolution which will be incorporated in the committee report to the chamber, censuring Premier Combes for his refusal to express the views of the government on the subject.

WAS IT WORK OF WRECKERS?

Wreck at Litchfield, Ill., the Subject of a Rigid Investigation.

Many of Those Killed in the Wreck Were Burned Before the Eyes of Horrified Spectators.

Litchfield, Ill., July 2.—Did train wreckers open the Alabash switch here Sunday afternoon and cause the collision in which 18 persons were killed and approximately 50 injured? This is the theory upon which the authorities are working.

States Attorney L. V. Hill, of Hillsboro, and Coroner Gray have started an investigation along this line.

The open switch is a mystery. A short time before the wreck a south-bound fast passenger train passed safely over the track, running at a high rate of speed. A complex line had been used during the entire day by trainmen, according to a statement of Wabash Agent Charles A. Conners.

Another theory is that the train jarred the switch open by its high speed.

Monday morning a wrecking crew arrived and are cleaning up the debris from the wreckage.

The wrecked train was the Chicago limited, filled with passengers bound for St. Louis, chiefly to attend the fair.

It is estimated that 700 persons were on the train. A complex line of the dead has not been made up for the reason that the exact number is not known. The official estimate, including those who died Monday morning, is that those who perished in the wreck is 20.

Two more bodies were found in the wreck Monday morning.

The city fire bells spread the alarm to the populace, which turned out en masse with the fire department to fight the flames and to save lives.

Some bystanders say three or four bodies were found in the wreckage. One unidentified woman; whose ankles were pinned beneath a heavy beam, begged for help, crying for the wreck to cut off her legs rather than allow her to perish in the fire. The rescuers worked swiftly about her until the heat drove them away and then she was burned before their eyes.

The number that perished in the flames will probably never be known. Some bystanders say three or four bodies were found in the wreckage. One unidentified woman; whose ankles were pinned beneath a heavy beam, begged for help, crying for the wreck to cut off her legs rather than allow her to perish in the fire. The rescuers worked swiftly about her until the heat drove them away and then she was burned before their eyes.

OVER SIX HUNDRED MISSING

Terrible Loss of Life Caused by Sinking of Danish Steamer.

Capt. Gundel Among the Survivors of the Wreck, Tells the Story of the Catastrophe.

London, July 5.—Of 774 souls on board the Danish steamer Norge, 128, including Capt. Gundel, are known to have been saved. One of the children died in a lifeboat which brought others to safety. For the missing 646 persons small hopes are entertained.

In addition to the 25 persons who landed at Grimby, 102 survivors of the Norge were landed at Stornoway, 32 by the British steamer Cervona, and 70 by the German steamer Energie. They were all in a pitiful condition. Many were taken to a hospital, and most of them had to be carried ashore.

Among those on board the Energie was Capt. Gundel of the Norge.

RAISULI AGAIN ON WARPATH

Appalling Recital of European Life to Nooristan Fanaticism Is Expected.

London, July 5.—The Tangle correspondence of the Mail, dated July 4, says: "French officials here admit that the crisis was never more critical. Fighting occurs daily in this vicinity."

"Raisuli is only two hours from Tangle, and is collecting men. Yesterday he attacked three villages and looted their cattle."

"The town guards are helpless. When the outbreak comes there will be an appalling sacrifice of European life to the fanaticism of the Moors."

"The sultan has cut down the soldiers' pay by one-half, and the disaffected soldiers are deserting and joining the freeloading hands."

KILLED BY A GIANT CRACKER

St. Joseph Man Meets Horrible Death in a Peculiar Manner.

St. Joseph, Mo., July 5.—An unknown man was killed at 2230 North Main street Monday night by a giant cracker, which he held in his hand at the time it exploded.

Eight persons in various parts of the city were badly injured. The day was celebrated in the usual manner, despite the fact that the police force struggled to curtail the use of giant crackers and fireworks.

Will Vote Democratic Ticket.

Denver, Col., July 5.—The ways and means committee of organized labor of Colorado has adopted a platform for the fall campaign and pledged support of the Democratic state ticket if the Democratic platform shall embrace the provisions of the labor platform.

William Ratigan Killed.

London, July 5.—Sir William Henry Ratigan, member of parliament for northeast Lanarkshire, was killed Monday in a motor accident near Biggleswade, Bedfordshire, when he burst as the car was overtaken.

SAYS JAPANESE ARE RETREATING

Gen. Kuropatkin Informs the Czar That the Japanese are Retreating Toward Chanza.

THEY HOLD THE ROAD TO KIA-CHOU, FORCING THE RUSSIANS TO RETIRE.

The Japanese Advance in the Feng-Wang-Cheng Region Has Ceased. While in the Hsu-Yen-Sian and Sian-Shan Districts They are Retreating Southward.

St. Petersburg, July 3.—The following dispatch from Gen. Kuropatkin, dated June 30, has been received by the emperor:

"Not only has Gen. Kuropatkin's forward movement in the direction of Hail-Cheng and Ta-Cheng-Kiao been suspended, but even the Japanese troops marching on the road to Khamza, towards Sian-Diao, have begun to retreat toward Chanza, on the road to Sian-Yen. The village of Madialze has been occupied by our troops."

"No Japanese retreat has been observed on the southern road leading to Kai-Chou, across the Chapianli pass. Our cavalry operating in the direction of Sian-Cheng has retreated north under pressure of the enemy."

"Southward of Hail-Cheng the Japanese have placed strong infantry advance posts for a distance of 122 miles along the roads leading from the different passes."

"The Japanese advance in the Feng-Wang-Cheng region has ceased, while the enemy has retired southward."

TELLS A DIFFERENT STORY.

Gen. Kuropatkin Says the Russians Have Retreated All Along the Line.

via Pusan, June 25.—(Delayed in transmission.)—The Russian troops have retreated all along the line before the northern advance of the Japanese army, and the country to the northwest is almost clear of them.

A cavalry division which has been active in front of the Japanese right has retired along the roads and across the country. It appears as though Gen. Kuropatkin feared he would be surrounded. Should he determine to make a stand at Tai-Yang a decisive battle before the rains is probable.

SATISFACTION EXPRESSED.

News That Rear-Admiral Witthof's Squadron Did Not Sustain Damage.

St. Petersburg, July 3.—Much satisfaction is expressed in all circles at the information coming from Russian official sources that Rear-Admiral Witthof's squadron did not sustain any damage in the fight at Port Arthur on June 23.

The papers are unsparing in their denunciation of the reports disseminated by the Japanese of the sinking of the Japanese cruiser, and the crippling of two other war vessels.

The Novoe Vremya publishes a leading article on the subject under the caption "Togo Lies."

The Journal de St. Petersburg prints a special dispatch from Liao-Yang, dated Friday, saying the Japanese are retreating all along the line.

The Russky Invalid, the army organ, expresses the opinion that the movement of the Japanese from Feng-Wang-Cheng in the direction of Liao-Yang is simply a demonstration made for the purpose of checking the Russian cavalry north of Salimata and drawing of Gen. Kuropatkin's attention from the Chipianli and Dalin passes, over which the Japanese are advancing toward Hail-Cheng, which is their real point objective.

A CRISIS AT PORT ARTHUR.

Foreigners Ordered to Leave and All Russian Subjects Under Arms.

Chefoo, July 2.—Admiral, it is asserted, reaching a crisis at Port Arthur, and the Russians are ready to meet it with all the force at their disposal. It appears as though the Russian army are under suspicion, have been ordered to leave. A number have arrived here, including the managers and clerks of large firms which continued in business during the siege. The Russians sealed the premises and gave the merchant receipts for their stocks of goods.

The Norwegian steamer Sentis is in the harbor ready to bring out the women and children. Every Russian subject is being ordered to leave the city to take a place in the ranks and join the forces facing the invaders on the hills back of the town.

IS CHARGED WITH MURDER

Kansas City Man Is Arrested at Walla Walla, Wash., on a Murder Charge.

Kansas City, Mo., July 5.—Frank Hottel, of this city, 39 years old, was arrested in Walla Walla, Wash., Monday charged with the murder of Clarence Myers in this city, May 11. Myers was found dead with his throat cut. His wife declared that two negro burglars were his assailants. The police professed to believe her story, but they pursued an investigation on the theory that a man accustomed to visiting the woman had killed the husband. Hottel and Mrs. Myers were taken together at Higginsville, Mo. Mrs. Myers is still in Kansas City.

THE ALTAR OF PATRIOTISM

The Annual Sacrifice Offered to the Goddess of Liberty.

Incomplete Returns Show Thirty-Seven Dead and Over Sixteen Hundred Wounded.

Chicago, July 6.—Like a report from a battlefield are the returns from the celebration of the glorious Fourth in the United States. With the list only partially made up, it is shown that 37 are dead and more than 1,000 injured, many of them fatally. It is safe to predict that of the injured perhaps 100 will eventually die from tetanus or other complications. Of the injured over 100 are minus both hands, or one hand, or an eye, or a leg.

The deadly toy pistol and the still more deadly cannon cracker have given this year to the infernal contrivance known as the dynamite cane. Fully 35 per cent. of the accidents are traced to this contrivance, which is chiefly remarkable by its tendency to explode, wounding everybody in the vicinity.

The following incomplete table will give some idea of the casualties of the day, gathered from various points in the United States:

Totals dead	37
By toy pistols	7
By cannon and cannon crackers	4
Explosive fireworks	4
Dynamite canes	13
Drowning	5
Runaway accidents	6
Total injured	1,222
By dynamite canes	242
By toy pistols	135
By cannon and cannon crackers	120
Explosions	57
Other causes	738

Notwithstanding stringent regulations were put in force in many cities to reduce the carnage by means of the year, the carnage will not fall much below that of last year. In the eastern cities the death list was considerably reduced, but the west was up for the deficiency. The property loss, due to fires caused by celebrations, will probably reach a total of \$150,000. This longer has apparently been closely guarded this year.

IS RELEASED FROM CUSTODY

Charles H. Moyer, President of Miners' Union, Furnishes Bond for \$10,000 on Murder Charge.

Denver, Col., July 6.—Charles H. Moyer, president of the Western Federation of Miners, was released from custody by Sheriff Bell, of Teller county, in this city Tuesday afternoon, after furnishing bonds for \$10,000 on the charges of murder and inciting riot, filed against him at Cripple Creek. Bond was provided by a guarantee company. Moyer has been a prisoner 103 days, and during the greater portion of that time was confined in the pen at Teller on the plea of "military necessity."

Bonds were also furnished for Vice-President J. C. Williams and Assistant Secretary Robert O. Anderson of the Western Federation. Other executive officers of the federation, all of whom are included in the informations filed at Cripple Creek, are provided by guarantee company. Moyer has been a prisoner 103 days, and during the greater portion of that time was confined in the pen at Teller on the plea of "military necessity."

A BOY KILLS HIS FATHER

Claims Parent Had Spoken Ill of His Dead Mother, and He Retreated the Insult.

Hopkinsville, Ky., July 6.—Mack Horn, of Paducah, aged 28, shot and killed his father, James Horn, aged 50, a barber. The dead man had been divorced and married again, and the son took offense at remarks made against his mother and her ex-husband. Later, young Horn walked into the saloon and shot his father. "I'd kill two fathers if they talked about my mother!" is his explanation.

CAR JUMPS THE TRACK

Accident Said to Be Due to Carelessness in Switching the Car.

Cripple Creek, Col., July 6.—A short line passenger car from a train west-bound from Colorado Springs to Cripple Creek, jumped the track Tuesday near Comer, eight miles from Cripple Creek, and was overturned. Dr. H. S. Torrance and T. P. Aicheart, both well-known citizens of Cripple Creek, were killed. Fifteen passengers were injured.

Annapolis, Md., July 6.—Twenty additional candidates for admission to the naval academy have passed the physical examination, making 94 in all who have passed both mental and physical tests. Of this number, 49 youths have been sworn in as midshipmen.

CHILDREN COMMIT SUICIDE.

Sioux City, Ia., July 6.—Olyn Gray and Lucy Pine, children of farmers of Union county, South Dakota, took strychnine and died in each other's arms. They were lovers, and their union was not approved by their parents.

A GENERAL STREET FIGHT.

Evansville, Ind., July 6.—At Bird's Eye, Ind., in a general street fight, Thomas Nelson, Stillman Cummins and Flynn Marshall, Robert Oley were shot, and Nelson and Oley are not expected to live.

ABANDONED BY RUSSIANS.

Tokio, July 6.—Gen. Kuropatkin has occupied Mao Tien pass without resistance. The Russians have abandoned Tsin Shan Qwan, burning the supplies.

Butterick Patterns To be Handled Again by Bishop & Co.

We have again taken the agency for the best—The Old Reliable Butterick Paper Pattern. Having signed an agreement to keep \$400 worth constantly on hand for one year, at the end of which time we shall be only too glad to renew the contract, if the people of Hopkins and adjoining counties value these high class patterns to the extent of making the Butterick Pattern business self sustaining. Prices: 10c, 15c, 20c and 25c. Call on us or write us for anything in the Butterick line, and oblige,

Yours Respectfully,

Bishop & Company

C. C. GIVENS, G. W. RASH, and J. A. FRANCEWAY.

WHY DON'T YOU ADVERTISE?

BLUE G. HARD.

When business is dull and times are hard
That is the time to get wise,
Don't sit around and knock all day;
Why don't you advertise?
If your goods won't sell and trade is slack,
Two things all merchants despise,
Don't get in the dumps and have the blues;
Why don't you advertise?
There's lots of good trade you might secure,
If you had enough enterprise.
Why don't you get out of the same old rut—
Why don't you advertise?
You nail a few boards on fences and trees,
Where no one to read them tries—
You are wasting your money, as well as your time;
Why don't you advertise?
There is only one way to make things hum,
Anyone can do it who tries;
Go to THE BEE office the first of the week
And begin to advertise.

The Influence of Parents.

Of all the teaching in the world ninety-nine hundredths at least is done by fathers and mothers. Every child learns more in the way of actual facts from the day of its birth until the end of its twentieth year than it can possibly learn in all the rest of its life put together.
During these first hours and years of life the child learns to walk, to talk, and what is far more important, learns the beginning of self-control. During the first years the child puts itself in touch with the world into which it is born, and in these early years the parents, and the mothers especially, are the teachers. They start the operation of the mind, giving it its first bent, however able the teachers of "ure may be, however common and learned, in the great cases the child's future, or failure, depends upon this influence of the parent.

NEWS FROM NEBO.

Since my last letter we have had an abundance of rain, consequently garden truck is plentiful.
Mines Cox, of Birmingham, Ky., came to his old home Saturday to see his mamma and somebody else. He holds the position of cashier in a bank at Birmingham.

The paymaster on the Branch road failed to come to time last week and quite a number of hands quit work.
A number of our young men visited the street fair at Dixon last week.

Mrs. Jennie Fuller, of Hopkinsville, who has been visiting at D. G. Bennett's has returned home. She was accompanied by Bertha Bennett who will remain several days.

Uncle Tom Northern, a former citizen of Nebo, now of Providence, is here on a visit.

George McDan and family, of Lebanon, visited the wife of J. B. Peyton last Sunday.

Rev. Moore of the Christian church was at his regular appointment but instead of preaching at his 11 o'clock appointment had a number of talks by various members. A number of excellent remarks were made, but hope we will be pardoned if we mention Miss Helen Cox as having delivered one of the finest addresses we ever had the pleasure of listening to.

A lively team from Providence started to run with a buggy Sunday night. They soon came back from the buggy and ran through Nebo at their highest speed. They met Mr. Bob Walker, our liverman, about two miles from Nebo. One of the horses struck against the shaft of Mr. Walker's buggy running it into his breast killing him almost instantly. We learn that the team belonged to Mr. E. G. Bishop.

Our usually quiet town was roused to a high pitch of excitement Monday morning when, without any previous notice, an automobile suddenly appeared on our streets, but where it came from and where it was going was unknown to your correspondent. It disappeared in the direction of Madisonville with Chis Hoffman in hot pursuit.

We attended the Sunday school convention which met at Manlius. Everything went off pleasantly. Enough to eat to feed many more than were present and that of the very best. Everyone there seemed to have a good time. The people of Manlius never do anything by halves.

T. M. Peyton left Thursday to attend convention which met at Hopkinsville.

The old bachelor was around again Sunday.
Mrs. Goldie Vickers, of Madison-

ville, was here Sunday.
Frank Baker, of Lisbon, was in Nebo Sunday.

The Children's Day entertainment Sunday night at the Christian church was well attended and everything passed off nicely.

Uncle John Langley came out Saturday. He was quite feeble while here. He returned home Monday morning.

While sauntering around a day or two ago we strayed into the brick yard and found everything booming. They will have brick ready for delivery by the 20th of July. The gentlemen who have the thing in charge deserve great credit, for it was badly needed in this locality.

We miss one of our loafers. Where he has gone we know not—but we miss him.

Mr. Morse arrived Friday to take charge of the section, vice Mr. Witherspoon.

The bank and postoffice closed doors on the Fourth; otherwise things were about as usual.

Nebo can produce more smart Alecs to the square foot than any other town in Kentucky.

It is rumored that our city dads contemplate passing an act forbidding cattle running on the streets.

Our young friend Gus Davis, who has been attending the Medical College in Louisville, has returned home a full fledged M. D.

Rev. Howell preached at the Methodist church Sunday night.
Amplis Owen paid his regular semi-monthly visit Monday.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in all your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 50c; regular bottles, 75c. At all druggists.

Because he has crossed the Atlantic so many times Charles Frohman's friends call him To-and-Frohman.

More than \$750,000 worth of artificial milk was exported last year from Germany and France to the United States.

Recreate Your Bowels With Cascara. Candy Cathartic, pure constitution forever. 10c, 25c. H. C. C. Co., Chicago, Ill. Sold everywhere.

HAPPENINGS IN KENTUCKY.

Two carloads of United States foundation stock for breeding cavalry horses were shipped from Lexington, Monday, to San Francisco, where they will be embarked for the Philippines.
Marshall, Lyon and Livingston counties are trying to collect the taxes on the Illinois Central bridge over the Cumberland river, near Paducah, each claiming that the bridge is within its limits.
Crofton, Ky., is to have an old time fiddlers' contest early in this month. This is quite an affair for this little town and many people will turn out to see it.

At the request of Auditor Hager, Attorney General Hays has handed down an opinion in which he holds that the act appropriating \$15,000 annually to the Kentucky Children's Home Society conflicts with several sections of the Constitution.

Dr. C. M. Smith, of Corvdon, Ky., is the happy or unhappy owner of a Shetland mule. This monster specimen of the breed is about four weeks old and the doctor was much chagrined upon going to the stable, to find that his new property was a mule. The little Shetlander was 20 inches high and well made, and when grown, it no ill luck befalls him, will be about the size of a large Newfoundland dog but not so heavy set.

Mt. Vernon has a curfew law for the benefit of the cows, which says that no cow is allowed to be promenading the streets of that place between the hours of 4 a. m. and 8 p. m., unless accompanied by her lawful owner.

Over in Madison county the other day a cow was killed by lightning. After the storm a farmer came along and seeing the dead cow went to the house of her owner and said: "Jim, your black cow has been struck and killed." "Is that so?" answered the cow's owner. That's the best cow I had. She was worth \$100 at least. What train struck her?" "She wasn't hit by a train," said the first farmer. "Lightning struck her." Oh, he—said the owner of the cow. "I thought it was a train. Well, I don't care much. That old cow wasn't worth a row any way."

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This remedy is certain to be needed in almost every home before the summer is over. It can always be depended upon even in the most severe and dangerous cases. It is especially valuable for summer disorders in children. It is pleasant to take and never fails to give prompt relief. Why not buy it now? It may save your life.

For sale by St. Bernard Drug Store, Earlinton; Ben T. Robinson, Mortons Gap; Jno. S. Taylor, Earlinton.

Manchester, Eng., is about to establish a great international telephone plant in co-operation with a dozen neighboring towns.

The largest appropriation for good roads was that made at the last session of the New York legislature. It was a million and a half.

The Nile dam at Assuan enabled the Egyptians last summer to supply 20,000,000 extra tons of water daily at the critical time for agriculture.

With Large Trade Last Year.

In order to have the same good will and favor of my many customers I expect to offer a most stylish line, as well as a large variety, at the lowest prices ever shown in Hopkins county. I have a line of buggies that is unequalled. I AIM to sell the AMES Buggy, and I AIM to sell lots of the AMES Buggies. So call and examine our line and be convinced of what I have told you in this ad. I will also handle a line of Single Corner Buggies, a most excellent line, manufactured in Evansville. We have a first-class harness maker and repairer, and will also make a specialty of hand made harness to order and do all kinds of repairing.

J. G. FOLEY,
Madisonville, Kentucky.
